Vol. 1, No. 2-3, 2003

Special Issue

Increasing Mucuna's Potential as a Food and Feed Crop

	Page No.
Vol. 1. No. 1*	1 - 44
PREFACE <i>R.M. Kiome and P. Hartmann</i>	45
EFFORTS TO IMPROVE THE POTENTIAL OF <i>MUCUNA</i> AS A FOOD AND FEED CROP: BACKGROUND TO THE WORKSHOP <i>M. Eilittä and R.J. Carsky</i>	47
THE ROLE OF GREEN MANURE LEGUMES IN SMALLHOLDER FARMING SYSTEMS IN KENYA: The Legume Research Network Project <i>J.G. Mureithi, C.K.K. Gachene and J. Ojiem</i>	57
I. THE USE OF <i>MUCUNA</i> IN THE DIETS FOR RUMINANTS	
RUMEN DEGRADABILITY AND CHEMICAL COMPOSITION OF THE VELVET BEAN (<i>Mucuna</i> spp.) GRAIN AND HUSK <i>A.J. Ayala-Burgos, P.E. Herrera-Díaz and J.B. Castillo-Caamal</i>	71
<i>IN VITRO</i> GAS PRODUCTION AND DIGESTIBILITY OF <i>MUCUNA</i> BEAN <i>C.A. Sandoval-Castro, P. Herrera, C.M. Capetillo-Leal and A.J. Ayala-Burgos</i>	77
NUTRITIVE VALUE OF TOP-CANOPY HERBAGE OF <i>MUCUNA</i> AND <i>LABLAB</i> RELAY-CROPPED IN MAIZE IN THE SUB-HUMID HIGHLANDS OF NORTHWESTERN KENYA <i>E.M. Nyambati and L.E. Sollenberger</i>	81
THE EFFECT OF <i>MUCUNA</i> (<i>Mucuna pruriens</i>) FORAGE ON THE PERFORMANCE OF LACTATING COWS <i>R.W. Muinga, H.M. Saha and J.G. Mureithi</i>	87
IMPACT OF <i>MUCUNA</i> BEAN (<i>Mucuna</i> spp.) SUPPLEMENTATION ON MILK PRODUCTION OF GOATS <i>H. Mendoza-Castillo, J.B. Castillo-Caamal and A. Ayala-Burgos</i>	93
<i>MUCUNA</i> SEED AS A FEED INGREDIENT FOR SMALL RUMINANTS AND EFFECT OF ENSILING ON ITS NUTRITIVE VALUE <i>V.R. Matenga, N.T. Ngongoni, M. Titterton and B.V. Maasdorp</i>	97

	Page No.
MUCUNA BEAN (<i>Mucuna spp.</i>) SUPPLEMENTATION OF GROWING SHEEP FED WITH A BASAL DIET OF NAPIER GRASS (<i>Pennisetum purpureum</i>) <i>A.M. Castillo-Caamal, J.B. Castillo-Caamal and A.J. Ayala-Burgos</i>	107
FEEDING MUCUNA BEANS TO SMALL RUMINANTS OF MAYAN FARMERS IN THE YUCATAN PENINSULA, MEXICO <i>J.B. Castillo-Caamal, J.J. Jiménez-Osornio, A. López-Pérez, W. Aguilar-Cordero and A.M. Castillo-Caamal</i>	113
PERFORMANCE OF GROWING LAMBS SUPPLEMENTED WITH <i>Mucuna pruriens</i> <i>F. Perez-Hernandez, A.J. Ayala-Burgos and R. Belmar-Casso</i>	119
EFFECT OF INCLUSION OF <i>Mucuna pruriens</i> AND <i>Dolichos lablab</i> FORAGE IN NAPIER GRASS SILAGE ON SILAGE QUALITY AND ON VOLUNTARY INTAKE AND DIGESTIBILITY IN SHEEP <i>E.W. Mbutia and C.K. Gachui</i>	123
 II. PROCESSING METHODS FOR FOOD AND FEED FROM MUCUNA BEANS	
SEED CHARACTERISTICS, AND NUTRIENT AND ANTINUTRIENT COMPOSITION OF 12 MUCUNA ACCESSIONS FROM NIGERIA <i>I.E. Ezeagu, B. Maziya-Dixon and G. Tarawali</i>	129
NUTRITIONAL POTENTIAL OF FIVE ACCESSIONS OF A SOUTH INDIAN TRIBAL PULSE, <i>Mucuna pruriens</i> var <i>utilis</i> I. The effect of processing methods on the content of L-Dopa, phytic acid, and oligosaccharides <i>K. Janardhanan, P. Gurumoorthi and M. Pugalenti</i>	141
NUTRITIONAL POTENTIAL OF FIVE ACCESSIONS OF A SOUTH INDIAN TRIBAL PULSE, <i>Mucuna pruriens</i> var <i>utilis</i> : II. Investigations on total free phenolics, tannins, trypsin and chymotrypsin inhibitors, phytohaemagglutinins, and <i>in vitro</i> protein digestibility <i>P. Gurumoorthi, M. Pugalenti and K. Janardhanan</i>	153
WATER EXTRACTION OF L-DOPA FROM MUCUNA BEAN <i>A.A. Teixeira, E.C. Rich and N.J. Szabo</i>	159
PROCESSING OF VELVET BEAN (<i>Mucuna pruriens</i> var. <i>utilis</i>) BY FERMENTATION <i>M. Egounlety</i>	173

	Page No.
EFFECT OF GERMINATION, ALKALINE AND ACID SOAKING AND BOILING ON THE NUTRITIONAL VALUE OF MATURE AND IMMATURE <i>MUCUNA</i> (<i>Mucuna pruriens</i>) BEANS <i>E. Wanjekeche, V. Wakasa and J.G. Mureithi</i>	183
PROCESSING OF <i>MUCUNA</i> FOR HUMAN FOOD IN THE REPUBLIC OF GUINEA <i>O.K. Diallo and T. Berhe</i>	193
PROTEIN AND COOKING QUALITY AND RESIDUAL CONTENT OF DEHYDROXYPHENYLALANINE AND OF TRYPSIN INHIBITORS OF PROCESSED <i>MUCUNA</i> BEANS (<i>Mucuna</i> spp) <i>R. Bressani, M. Lau and M. Silvia Vargas</i>	197
SURVEYING <i>MUCUNA</i> 'S UTILIZATION AS A FOOD IN ENUGU AND KOGI STATES OF NIGERIA <i>J. Onweluzo and M. Eilittä</i>	213
 III. THE USE OF <i>MUCUNA</i> IN DIETS FOR NON-RUMINANTS	
EFFECT OF PROCESSING, ADDITIVES, AND VITAMIN B ₆ SUPPLEMENTATION OF <i>Mucuna pruriens</i> var <i>cochinchinensis</i> ON BROILERS <i>S.N. Ukachukwu and N.J. Szabo</i>	227
THE EFFECT OF DIETS INCORPORATING <i>MUCUNA</i> (<i>Mucuna pruriens</i>) SEED MEAL ON THE PERFORMANCE OF LAYING HENS AND BROILERS <i>E.A. Iyayi and V.O. Taiwo</i>	239
STUDIES ON <i>MUCUNA</i> AS POULTRY AND PIG FEED IN THE REPUBLIC OF GUINEA <i>A. Camara, K. Toupou, D. Diallo and T. Berhe</i>	247
THE EFFECTS OF DIFFERENT PROCESSING METHODS OF VELVET BEANS (<i>Mucuna pruriens</i>) ON L-DOPA CONTENT, PROXIMATE COMPOSITION AND BROILER CHICKEN PERFORMANCE <i>D. Nyirenda, M. Musukwa and L.O. Jonsson</i>	253
DEVELOPING MULTIPLE USES FOR <i>MUCUNA</i> : EXPERIENCES OF THE SEDENTARY FARMING SYSTEMS PROJECT IN TRANSITIONAL ZONE OF GHANA <i>P. Boahen, H. Loos, W. Zschechel, A. Hanson and P. Annan</i>	261

HEATING RAW VELVET BEANS (*Mucuna pruriens*) REVERSES
SOME ANTI-NUTRITIONAL EFFECTS ON ORGAN GROWTH,
BLOOD CHEMISTRY, AND ORGAN HISTOLOGY IN GROWING
CHICKENS

267

*L.B. Carew, D. Hardy, J. Weis, F. Alster, S.A. Mischler,
A. Gernat and E.I. Zakrzewska*

EVALUATION OF DIFFERENT PROCESSING METHODS OF
VELVET BEAN (*Mucuna pruriens*) FOR USE AS A FEED
INGREDIENT FOR BROILERS

277

*H.A. Ferriera, B. K. Peña, A.G. Gernat, L.B. Carew
and I.A. Matamoros*

IV. IMPACT OF *MUCUNA*'S SECONDARY COMPOUNDS ON HUMAN HEALTH

EXAMINATION OF RAW AND ROASTED *Mucuna pruriens* FOR
TUMEROGENIC SUBSTANCES

287

S. Burgess, A. Hemmer and R. Myhrman

INDOLEALKYLAMINES IN *MUCUNA* SPECIES

295

N.J. Szabo

V. CHARACTERIZATION AND IMPROVEMENT OF *MUCUNA* GERMPLASM

THE USE OF MOLECULAR MARKERS IN THE STUDY OF GENETIC
DIVERSITY IN *MUCUNA*

309

L.J.A. Capo-chichi, D.B. Weaver and C.M. Morton

EFFECT OF GENOTYPE AND ENVIRONMENT ON L-DOPA
CONCENTRATION IN *MUCUNA*'S (*Mucuna* sp.) SEEDS

319

L.J.A. Capo-chichi, M. Eilittä, R.J. Carsky, R.A. Gilbert and B. Maasdorp

OUTCOMES OF THE WORKSHOP

FUTURE AGENDA FOR RESEARCH AND PROMOTION

329

*M. Eilittä, R.J. Carsky, J. Mureithi, N. Szabo, R. Bressani, R. Myhrman,
C.A. Sandoval, R. Muñga, L.B. Carew, L.J.A. Capo-chichi and A. Teixeira*

* Pages 1 – 44 are from Volume 1, No. 1, 2002.

Acknowledgements

This special issue of Tropical and Subtropical Agroecosystems reports on research that has been conducted between the years 2000 and 2002 on the food and feed utilization of *Mucuna pruriens*, a promising green manure/cover crop. Much of the research was made possible by the financial support of the Rockefeller Foundation, particularly through the project “Increasing *Mucuna*’s Utilization as a Food and Feed Crop” (project no. 2000 FS 142); the Foundation’s, and particularly R. Puentes’ (RF-Mexico) sustained interest in the advancement of *Mucuna* research is gratefully acknowledged. The project was administered and coordinated by CIEPCA (Center for Cover Crops Information and Seed Exchange in Africa) of IITA (International Institute of Tropical Agriculture). We are grateful to IITA for hosting and contributing to the project in these past two years.

Additionally, the Rockefeller Foundation, together with Sasakawa-Global 2000 in Guinea, funded the international workshop held 23-26 September 2002 in Mombasa, Kenya, at which the papers in this volume were presented. The project coordinators, workshop organizers, and the editors of these proceedings are grateful for this support. They would also like to thank R.M. Kiome, the director of KARI (Kenya Agricultural Research Institute), for hosting the workshop at KARI’s Mtwapa station. R.J. Carsky and L.B. Carew kindly reviewed several of the workshop papers and T.S. Ferguson skillfully edited the paper for language.

Last, but not least, the workshop organizers and editors would like to thank the project researchers and collaborators for their enthusiasm, for their commitment to improving the lives of the poor in developing regions, and for the support that they have given to one another’s efforts. Their spirit has taken us to where we are now.

Photos in cover, counter-clockwise from the top:

1. A farmer from the community of Xohuayán, Yucatán, México, where University of Yucatan has conducted on-farm research, in his *Mucuna* field. By J. Castillo-Caamal.
2. A farmer from Mono Province, Republic of Benin, demonstrating how *Mucuna* is cooked in the forest zone of Ghana. The farmer had previously participated in a trip to Ghana to find out why and how Ghanaian farmers are eating *Mucuna*. By IITA-Benin.
3. Sheep feeding on *Mucuna* on a farm in the community of Sahcabá, Yucatán, México, another on-farm research site of the University of Yucatan. By J. Castillo-Caamal.
